

# SOUL IS...

Soul is the True Self. It is who and what you really are.

Soul is **unique**. Special and one of a kind!

Soul is **immortal**, it never dies.  
Each Soul is an **eternal**, unique atom of God.

**Soul exists because God loves It.**

The SUGMAD (God) gave Soul the gift of imagination.

Soul is **creative**! We can create our own lives.

Soul has free will.  
It has **freedom, wisdom, power, and love**.

As Soul, we can see and know all things.  
The spiritual exercises can show us how!

Souls are in this life to learn how to give and receive God's love,  
so we can become **Coworkers with God**.

There is no limit to how wonderful Soul is and how much It can grow.

Soul is a **happy** being! 😊
